A RELATIVE
JOURNAL OF
RECYCLING AND
SECURE SHREDDING

gatewaynews

SOLUTIONS FOR A SUCCESSFUL SECURE SHRED:

Call or email your gateway
account rep + request a quote.

We will set up on-site or off-site
secure destruction of sensitive
documents.

Your confidential documents will
be shredded to NAID Certified
Standards, then enter our
CLOSED LOOP SYSTEM for
added security, then recycled.

You will receive a certificate of
destruction and can continue
any other cleanouts with a clear
mind that your docs have been
securely destroyed.

SET UP YOUR SHRED:

Cleveland: 216.341.8777

Pittsburgh: 412.837.8777

Toledo: 419.729.9777

secure spring cleaning

It's that time of year again...people are outside enjoying the nicer weather... and YES, Spring Cleaning/Purging is upon us. Businesses should use the same mindset regarding their document destruction needs. This provides a great opportunity to review current retention schedules and gather up old confidential documents for destruction.

At Gateway, we have a unique and preferred CLOSED-LOOP SYSTEM for shredding of documents. This unique approach means that material never leaves the hands of Gateway from start to finish. Gateway picks up the material, shreds, bales, and then sends to a mill for de-inking and pulping. This adds an EXTRA LEVEL of security for your document destruction needs. At the conclusion of every shredding engagement, a certificate of destruction is provided, ensuring all materials collected were shredded and recycled securely through Gateway's Closed-Loop System.

With spring officially here, please take this as an opportunity to contact your local Gateway representative or contact the office to begin the process of purging outdated sensitive documents.

GATEWAY RELATIONSHIPS

HERES WHAT OUR RECYCLING PARTNERS ARE SAYING:

' Partnering with Gateway Recycling was one of the best decisions I made when I became the Sanitation Manager at my company. By far, Gateway is the most hands off vendor I work with each week. They stick to their scheduled pick-up times, and always accommodate my needs when we need to have something extra cleaned up at the facility. I would highly recommend onboarding Gateway Recycling.'

PLEASE LET US KNOW IF WE CAN DO ANYTHING TO IMPROVE OUR SERVICE WITH YOUR COMPANY OR IF THERE IS SOMETHING YOU ENJOY ABOUT WORKING TOGETHER WITH GATEWAY FOR YOUR RECYCLING AND SECURE SHREDDING NEEDS.

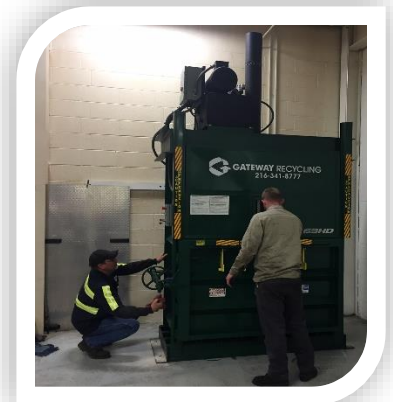

get equipped

GATEWAY CAN HELP WITH ALL YOUR
EQUIPMENT NEEDS FOR YOUR
RECYCLING PROGRAM

Gateway Recycling represents a complete line of recycling equipment for our customer base. Gateway can customize all equipment to assist with your recycling program; along with the goal to increase revenues or functionality within your recycling process.

- Balers – Vertical Balers, Closed Door Horizontal Balers, and Autotie Horizontal Balers
- Compactors – Stationary Compactors, Self-Contained Compactors, and Auger Compactors
- Drum Crushers – Metal and/or Plastic Drum crushers
- Grinders – Plastics
- Choppers/Chippers – Plastic and Metal choppers
- Shredders – Paper
- Plastic Condensers – Condensers for PS, PP, LDPE, etc.
- Conveyors, Cart tipplers and Floor scales
- Printers Specific – Vacuum Systems, Trim Separators, and Floor Shredders.

If your company is looking to expand on your current efforts/processes or if you are looking to upgrade older recycling equipment, please give your local Gateway Representative a call.

our savings are growing

OUR MISSION IS TO PROVIDE THE BEST CUSTOMER SERVICE TO OUR RECYCLING PARTNERSHIPS + TO MAKE A MASSIVE BENEFIT TO OUR ENVIRONMENT.

Every year gateway has a goal for our ENVIRONMENTAL SAVINGS, and this year is no different! The environmental savings impact is growing every day, with every partnership, and every pickup. Check out our website to see our ongoing numbers of what we've saved together.

Helping companies reach
their sustainability goals as
partners

ANGIE WADE of GATEWAY CONFIDENTIAL has achieved
Certified Secure Destruction Specialist (CSDS) Accreditation.

What does this mean for your company:

1. Angie is one of two CSDS representatives in Northeast Ohio
2. With this certification she is recognized as a Qualified and Approved CTK (Compliance Toolkit) Representative. The CTK is designed to provide a systematic approach for organizations to fulfill their regulatory obligation to have written information destruction policies and procedures in place. By NAID Standards, only representatives with this certification should be creating your companies Compliance Policy + Procedures.
3. Angie is available to demonstrate her in-depth knowledge for a consultation or speaking engagement on your information compliance program.

What is CSDS: The CSDS accreditation is awarded to individuals who demonstrate a high level of understanding & competency on issues pertinent to secure data and product destruction.

pressing topics

AT GATEWAY WE DO MORE THAN JUST PROVIDE AN ENVIRONMENTALLY BENEFICIAL WASTE REDUCTION SERVICE.. WE ALSO CONTRIBUTE TO THE COMMUNITY – HERE ARE SOME THINGS WE’VE BEEN UP TO

EARTH DAY IS ON APRIL 22 – DID YOU KNOW..

Recycling one can of soda will save enough energy to power a TV for three hours.

Most landfills are made up of a third of packaging materials that could be recycled.

The GATEWAY Team was excited to volunteer with the foodbanks in our local communities!
